

MODERN TECH SOLUTIONS

Technology for churches, nonprofits and service businesses

CAPABILITY STATEMENT

COMPANY OVERVIEW

Modern Tech Solutions designs practical digital systems that help mission-driven organizations strengthen operations, communication and growth. We combine web strategy, custom platforms, automation and direct implementation support in solutions shaped around each organization.

CORE CAPABILITIES

- **Web & Digital Presence**
Accessible, responsive websites and content systems.
- **Custom Platforms**
Mission-aligned portals, workflows and user experiences.
- **Systems & Automation**
Practical tools that reduce manual work and improve follow-up.
- **Cloud & Integration**
Secure platform configuration, data and service connections.
- **Training & Support**
Guided onboarding, documentation and ongoing assistance.

WHY MODERN TECH

- Direct access to technical leadership
- Mission and operations-first discovery
- Solutions shaped around real workflows
- Integrated strategy, design and delivery
- Small-business agility and accountability
- Training that supports confident adoption

REPRESENTATIVE SOLUTIONS

ModernChurchOS

A connected ministry platform for church communication, care and operations.
